Development & Operations	Visual Studio, Eclipse, GitHub, Jenkins, ESMAC, MQ Explorer, WinSCP

PROFESSIONAL EXPERIENCE

Packaged App Development Associate Manager | Accenture Solutions Pvt. Ltd **| Jan 2025 – current**
Software Engineer | Tecqubes Technologies Pvt. Ltd. | **Jul 2023 – Jan 2025**
Technical Lead | Cognizant Technology Solutions India Ltd. | **Aug 2013 - Jul 2023**

PROJECT EXPERIENCE

Aug 2013 to July 2023 – Cognizant Technology Solutions

Express Scripts Inc. - Healthcare Benefits Application

- SME for a business-critical claims benefits application, with expertise in Mainframe, COBOL/DB2, server programs, services, stored procedures, and batch jobs.
- Delivered major enhancements and developed automation solutions across Mainframe and Java, improving operational efficiency and service quality.
- Automated recurring reporting processes, significantly reducing manual effort; recognized in the project's Yearbook. •
- Drove Problem Management initiatives by identifying root causes and implementing permanent fixes, improving application stability and reducing recurring incidents
- Led Mainframe outage and job failure analysis, resolution, and knowledge management through Known Error Documentation.
- Created and maintained application handbooks and technical documentation to support knowledge transfer and operational continuity

Alfa Mutual Insurance - DYL280 Migration & Enhancements

- Quickly acquired expertise in the DYL280 language and independently delivered 100+ COBOL/DB2 programs, managing the complete development lifecycle from analysis to testing and implementation.
- Identified and resolved 30+ production defects during migration, enhancing application stability and code quality.
- Delivered 80+ enhancements/change requests and developed automation solutions for Farm Owner Policy clients, improving operational efficiency

Alfa Mutual Insurance - MPIUA Mainframe Modernization

- Supported the modernization of a Dialog System application by converting 200+ COBOL programs to Micro Focus COBOL and enabling .NET/C# integration.
- Resolved COBOL-C# linkage and screen development issues across 120+ screens, while supporting testing and defect resolution.
- Proactively identified production defects and implemented fixes, improving application stability and earning client appreciation.

July 2023 to Jan 2025 – TECQUBES TECHNOLOGIES SOLUTION PVT LTD

PROJECT 4 - AB IN BEV client

- Supported North America Zone Micro Focus applications, handling sales and distribution processes including Load, Transfer, Balancing, Invoicing, Payments, and Reporting.
- Quickly mastered tools such as ESMAC, TWS (Tivoli), Eclipse, DataTool, WinSCP, and MQ Explorer, providing production support during critical outages, environmental issues, and month-end business operations.
- Performed root cause analysis, incident resolution, and actively contributed to crisis/bridge calls for high-priority issues.
- Stabilized 10+ modernized applications by resolving scheduling failures, invoice processing issues, and production defects with limited documentation and rapid system understanding.

Jan 2025 to Present – ACCENTURE TECHNOLOGY SOLUTION PVT LTD

PROJECT 5 - Allianz client

- Successfully delivered development and unit testing for assigned functionalities in a complex migration project, quickly acquiring IMS DC knowledge to meet project requirements.
- Identified and resolved specification, design, and technical issues through root cause analysis, defect management, and solution recommendations.
- Collaborated with cross-functional teams, SMEs, and client stakeholders to resolve dependencies and blockers and support successful delivery.
- Identified defects and gaps in requirements and design documents and recommended solutions to improve overall solution quality.
- Adapted to frequent requirement and design changes and implemented enhancements within project timelines.
- Contributed to automation, system integration, knowledge sharing, and business process understanding to improve project efficiency and quality.
- Executed extensive unit, integration, and end-to-end testing to validate business-critical scenarios.

EDUCATION

Master of Computer Applications (MCA), GPA: 8.6 | Mepco Engineering College, Sivakasi — **Jun 2013**

- Ranked 26th in Anna University for the MCA degree.

B.Sc. Information Technology, 78.7% | Madurai Kamaraj University, Sivakasi — **May 2010**

CERTIFICATIONS

- J2EE Java Certification - ICT Academy of Tamil Nadu.
- Business English Certificate (BEC) - Cambridge University.
- ITIL Foundation Certified.
- Leadership Credential Certified.

AWARDS & RECOGNITION

- Received STAR performer award for outstanding performance in Q2, 2026.
- Received a special business allowance payout of INR 60,000 from Cognizant for outstanding performance and commitment in 2020.
- Received INR 10,000 from Tecqubes for hard work and dedication during a crucial period in February 2024.
- Received the top performance rating, Exceeds All Expectations, twice and the Associate of the Month award three times at Cognizant.
- Recognized by a client for automating a critical task that previously required 3+ hours per day; the improvement was included in the project yearbook.
- Received a thank-you note and recognition gift from a senior project director for critical support during a mainframe outage.
